PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience in building, testing, and deploying full-stack web applications. Proficient in creating scalable RESTful APIs with Node.js/Express.js and building responsive, dynamic user interfaces with React.js. I am eager to apply my skills in application development and problem-solving to contribute to a fast-paced, product-driven team.

EDUCATION

B.Tech, Computer Science & Engineering

Sri Aurobindo Institute of Technology, Indore | 2021 – 2025

TECHNICAL SKILLS

Frontend: React.js (Hooks, Context API), JavaScript (ES6+), HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, Python, RESTful APIs, JWT (JSON Web Tokens) Authentication

Databases: MongoDB, Mongoose, Sql, SQLite

Tools & Deployment: Git, GitHub, Postman, VS Code, Render, Vercel

PROJECTS

Full-Stack Realtor Website (MERN) :

- Engineered and deployed a full-stack property listing platform on Render using the MERN stack and Mongoose for schema design.
- Developed a secure RESTful API with Node.js/Express.js, implementing JWT-based authentication for role-based access control.
- Built a dynamic frontend with React (Vite), featuring interactive maps, advanced search filters, and robust form validation.

Content-Based Movie Recommender System (Frontend & API Integration) :

- Developed a responsive UI with JavaScript/HTML/CSS, using the content based filtering in ML model for recommendations, posters from Fetch API to asynchronously consume a Python/Flask backend and display personalized movie recommendations.

EXPERIENCE

Web Development Trainee

100xDevs (Remote) | Jan 2024 – Jun 2024

- Completed an intensive 6-month full-stack development program focused on the MERN stack.
- Built and deployed multiple applications, including a full-stack payment system prototype.
- Gained experience in user auth, DB design, and cloud deployment.
